The screenshot shows the IBM Cloud management console interface. The left sidebar contains navigation links for 'Kubernetes', 'Clusters', 'Reservations', 'Helm catalog', and 'Container Registry'. The main content area is titled 'Kubernetes clusters' and features a table with the following columns: Name, State, Location, Worker count, Created, Version, and Infrastructure. A single cluster named 'mycluster-free' is listed with a 'Normal' state, located in 'Paris', having 1 worker, and a version of '1.24.7\_1542'. The 'Created' column for this cluster indicates it 'Expires in 30 days'. Above the table, there are filters for 'Resource group' and 'Location', a search bar, and a 'Create cluster' button. The bottom of the image shows a Windows taskbar with various application icons and a system clock indicating 10:23 PM on 16-11-2022.
